

**MOLINOS agro**

**QUALITY, SAFETY, SECURITY, HEALTH AND ENVIRONMENT POLICY**

In Molinos agro we produce and commercialize safety and reliable products, satisfying the requirements of our clients. We strive to comply with the expectation of our business community; thus, we work with world-class standards on our products and processes and we seek the highest level of performance in our employees.

The quality and safety of our products; the safety and health of our collaborators and the protection of the environment are a fundamental value of our culture and a priority commitment of our company.

With this purpose, we promote an organization based on a continuous improvement of its processes and with innovation as the guiding principle, which enables us to enhance the value of the company, its shareholders, employees and the community. Therefore, with the sustainability concept as guide, we focus that all our decisions have a long-term vision.

**OUR OBJECTIVES**

**Comply with current laws and regulations regarding Quality, Safety, Security, Sanitation and Environment**, applicable to our organization; as well as with our own rules, or those rules to which the business decides to abide.

**Ensure the Quality and Safety of our products**, satisfying the client's demands, from the reception of the raw material until delivery of our products and guaranteeing compliance of our products and processes with the food safety requirements, such as Good Manufacturing Practices and other requirements of our clients.

**Optimize the use of resources ensuring an efficient use of the natural resources and materials**, in order to optimize the processes and ensure the least possible impact on the environment that surrounds us.

**Prevent dangers and eliminate risks of accidents and occupational diseases** of our collaborators.

**Promote commitment of our collaborators** by encouraging the professional growth through training, development of skills, communication and team work.

**Promote a continuous improvement of the organization performance regarding Quality, Safety, Security, Sanitation and Environment**, based on the establishment of objectives and goals and the periodic supervision of results and implemented management mechanisms.
